*The Guillemins district is certainly the one that best embodies modernity. Impressive infrastructures have thus sprung up from the ground in recent years. We marvel at the TGV station signed by Santiago Calatrava, the Finance Tower, or the Design Center. A masterpiece, the Liège TGV station attracts many tourists and photographers who make it the most photographed monument in Liège.*

You discover the noise of machines and the work of men; you live, the time of a visit, the fascinating universe of our "Houyeux".
